Instrument Trays / Robotic Instrument Cases

da Vinci Arm Sterilization Case

Secure up to 8 robotic instruments

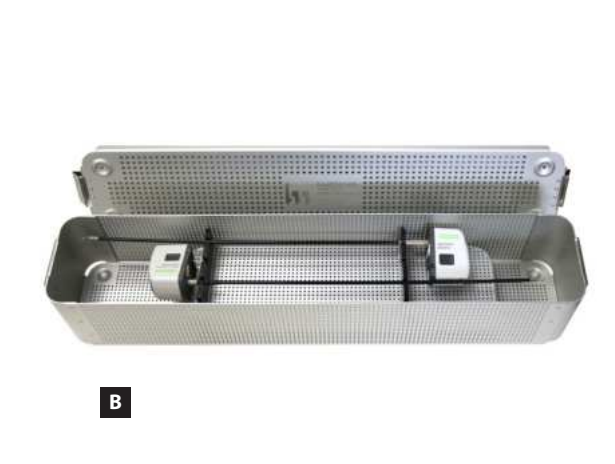

Manufactured of tough but lightweight anodized aluminum, this tray is configured to accommodate and secure robotic instrumentation for safe steam sterilization, transport and storage. The Secur-Its™ safely hold and protect up to 8 instruments with two 10 inch, 15 position universal brackets.

Robotic Arm Case

Secure 1 or 2 robotic instruments

Manufactured of tough but lightweight anodized aluminum, this tray is configured to accommodate and secure robotic instrumentation for safe steam sterilization, transport and storage. The Secur-Its™ safely hold and protect one or two instruments.

da Vinci Lens Case & Lid

Secure 1 or 2 robotic lenses

The da Vinci® Lens Case & Lid is manufactured of tough but lightweight anodized aluminum. Its designed for safe transportation and reprocessing of the da Vinci® instrument.

	Item Number	Description	Length	Width	Height	Din Size	Qty
A	31127 DV	da Vinci Arm Sterilization Case	27.00"	11.00"	3.50"	Extra Long	EA

Instrument Trays / Scope Trays

Bariatric Laparoscopic Tray

Two-level design holds up to 15 instruments

Large enough for the very long instruments used in bariatric surgeries, this double-decker system holds twice the number of instruments in the same amount of space. The laparoscopic insert includes graduated Secur-Its™ designed to accommodate up to 15 lap instruments.

Cysto Double-Decker Tray

Secure twice the number of instruments

The included Secur-Its™ can be placed virtually anywhere in this tray for maximum efficiency. The double-decker design holds twice the number of instruments in the same amount of space and the graduated Secur-Its™ are designed to hold instruments ranging from to 3 to 10mm in diameter.

Stainless-Steel Scope Trays

Safely secure delicate scopes

These tough but lightweight scope trays are an excellent alternative to factory supplied trays. Available in two sizes, each includes Secur-Its™ that can be mounted virtually anywhere they are needed within the tray.

	Item Number	Description	Length	Width	Height	Qty
A	51527	Bariatric Laparoscopic Tray	27.00"	11.00"	8.00"	EA

D	30118-SSC	Single Scope Tray	18.00"	3.00"	2.50"	EA

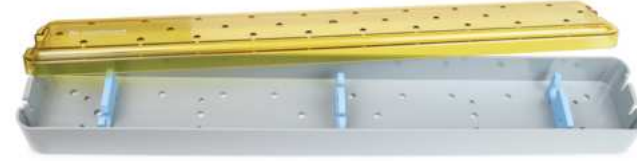

Instrument Trays / Scope Trays

Clear-Top Scope Trays

Designed to secure rigid scopes

A

B

Clear-Top Scope Trays feature a lightweight, tough and durable construction. Available in two sizes, each option includes plug-in Secur-Its that are designed to snugly secure and protect two rigid scopes.

Long Scope Instrument Tray

Designed to secure long rigid scopes

C

Designed for long rigid scopes and other delicate instruments, this tray is manufactured of lightweight, durable polypropylene and is compatible with sterilization. Silicone grips securely hold the scope and instruments in place.

Bariatric Scope Trays

Designed to secure long bariatric scopes

D

E

The Bariatric Scope Trays are specially designed to hold the very long bariatric scopes. Healthmark offers a single-scope style and a multi-scope style. The multi-scope style is capable of storing 1-2 scopes and several instruments.

Instrument Trays / Full Size Trays

Customizable Full Size Trays

Multiple sizes for a variety of uses

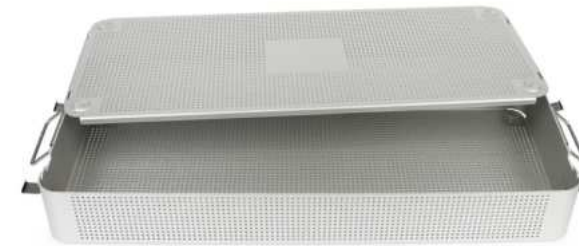

Design a tray to meet your exact needs. Select from several sizes and customize with universal instrument brackets and silicone finger mats. Trays are made of anodized aluminum with perforations to allow for proper penetration of sterilant.

Instrument Trays / Perforated Stainless Steel Trays

Perforated Stainless Steel Trays

Durability to last a lifetime

The perforated design ensures maximum steam penetration but limits the chance for delicate instrument points to become damaged. They are made with a strong stainless steel frame and ensure a construction to last a lifetime.

Magnetic Mat

Prevent items from falling from surfaces

Designed with strong round-raised magnets, this mat is intended to be used as a hands-free "neutral zone" sharps transfer area. This reusable, waterproof mat is heat-resistant up to 275°F, conforms to all surface shapes and can be fastened to drapes with a towel clamp. It also includes cut-lines that can be split in half to create two smaller sizes.
