Wound Management

HARTMANN

Simplicity. Down to a science.

Compression and Fixation Bandage Systems

Simple solutions for complex clinical challenges.

With our aging population, patients have at least one chronic condition and may have additional co-morbidities that can impact their quality of life. Healthcare providers across all care settings are stretched thin and costs keep mounting. Clinicians are charged with the mission to provide faster and more efficient care at lower costs and higher quality. Your primary objective is to link the patient's needs to clinical treatment goals. And when products are part of the treatment plan, you want simple solutions that are safe, comfortable and easy to use.

In this challenging environment, a simple formulary can make all the difference.

HARTMANN puts the patient first. Our high-quality products are designed to meet the changing needs of patients as they transition from higher-acuity settings to more independent care. By offering the right combination of therapeutic products, we help take complexity out of the equation so you can focus on what is most important – your patient.

By choosing HARTMANN, you have a partner dedicated to helping you improve the patient experience. For nearly 200 years, we have been innovating and actively seeking to improve healthcare. Your dedicated team of product specialists will help you create a formulary with a range of products to achieve your clinical treatment goals, then provide onsite product training for your staff. Our solutions are designed to generate repeatable, consistent practice to help promote improved clinical outcomes – all priced to offer you superior value.

Patient-centric, high-quality products backed by a highly trained team. It's really that simple.

Protect. Treat.
The science of sim

Solutions that PROTECT

Our products protect the skin to help reduce the risk for skin injury often related to adhesives and may be used to shield IV sites, drains and tubes from abrupt or unplanned removal.

Support.

plicity creates the ideal solution for every clinical need.

Solutions that TREAT

We help you manage the process of healing for disease states such as vascular insufficiencies, lymphedema and post-operative edema.

Solutions that SUPPORT

Our compression and fixation solutions support and help promote healing for joint and bone injuries, secure splints and function as positioning aides during surgical and interventional procedures.

Depend on our bandages to deliver accurate stretch, compression, comfort and support for optimal healing.

See our complete family of elastic, cohesive and multi-layer compression bandages, designed to: Protect. Treat. Support.

Solutions that **Protect.**

Our products protect delicate skin and help prevent damage caused by tape or other extrinsic factors.

Peha-haft® LF

- Unique blend of soft, skin-friendly gauze and cohesive fibers
- Ideal for delicate or traumatized skin
- Conforms exceptionally well in difficult-to-dress areas

COHESIVE

Co-Wrap® LF

- Soft, breathable and absorbent cohesive bandage that adheres to itself without pins, clips or tape
- For use as a secondary bandage, for over-wrapping primary dressings and securing IV tubes
- Provides light, consistent and secure compression

COHESIVE

Co-Lastic® LF

- Water resistant and lightweight
- Non-slip cohesive bandage that adheres to itself, not the skin
- Quick find starting edge and hand tears easily

COHESIVE

Comperm® LF and Comperm®-PD LF

- Cotton and polyester knit bandage with a tubular construction;
- Provides 360 degrees of uniform, consistent support
- Commonly used for edema reduction, post-cast support and protect sensitive skin from adhesives or trauma

TUBULAR BANDAGE

Products are not made with natural rubber latex.

Solutions that **Treat.**

Premium product solutions that help in the treatment of vascular insufficiencies, lymphedema and post-operative edema.

Co-Lastic® LF

- Water resistant and lightweight
- Non-slip cohesive bandage that adheres to itself, not the skin
- Quick find starting edge and hand tears easily

COHESIVE

Deluxe® LF and Deluxe® 480® LF

- Durable orthopedic grade woven bandage with high cotton content
- Provides superior, consistent elasticity, compression and support*
- Ideal for limb support following injury or surgery

ELASTIC

EZe-Band® LF

- Knit weave and high cotton content feel provides controlled, consistent compression
- Provides superior absorbency and breathability*
- Easy to apply and secure

ELASTIC

Econo-Paste® and Econo-Paste® Plus Calamine

- Non-slip cotton stretch gauze with zinc oxide paste (also available with calamine)
- Stretches and conforms easily
- Vacuum-sealed foil pouch for longer shelf life and innovative plastic core for easy application

ZINC PASTE BANDAGE

LoPress®

- Short stretch, inelastic cotton bandage
- Absorbent, breathable and allows flexibility of movement
- Durable enough to withstand repeated use and washing

INELASTIC

TwoPress®2, ThreePress® and FourPress®

- TwoPress®2 includes a short stretch cotton padding layer and a cohesive wrap for consistent compression, easy application and improved compliance
- ThreePress® includes a cotton padding layer, high stretch layer with stretch indicator and a cohesive wrap
- FourPress® includes a cotton padding layer, short stretch layer, high stretch layer and a cohesive wrap

MULTI-LAYER COMPRESSION

*In comparison to other HARTMANN USA products.

Solutions that **Support.**

Our compression solutions support and help healing for joint and bone injuries, secure splints, use as positioning aides and support during surgical and interventional procedures.

Deluxe® LF and Deluxe® 480® LF

- Durable orthopedic grade woven bandage with high cotton content
- Provides superior, consistent elasticity, compression and support*
- Ideal for limb support following injury or surgery

ELASTIC

EZe-Band® LF

- Knit weave and high cotton content feel provides controlled, consistent compression
- Provides superior absorbency and breathability*
- Easy to apply and secure

ELASTIC

Shur-Band® LF and Shur-Band® Ice Wrap LF

- Knit bandage for general support, compression or securing and treating varicosities, sprains and torn ligaments
- Self-closure flap fastens anywhere on the bandage for quick, easy and secure use without pins, clips or tape
- Ice Wrap designed with sewn pouch to hold standard size hot and cold packs

ELASTIC

Co-Lastic® LF

- Water resistant and lightweight
- Non-slip cohesive bandage that adheres to itself, not the skin
- Quick find starting edge and hand tears easily

COHESIVE

Medi-Rip® LF

- Convenient, multi-purpose self-adherent elastic support bandage
- Woven with 99% cotton yarn, yet tears easily without scissors
- Absorbent, lightweight and conforms easily

COHESIVE

Esmark LF

- Provides maximum and consistent compression to extremities for exsanguination prior to surgery
- Provides consistent 400% elongation for ideal compression and ease of application
- For use in surgical procedures especially joint replacement

ELASTIC

Products are not made with natural rubber latex.

*In comparison to other HARTMANN USA products.
