

Traditional Wound Management

Cosmopor®

Adhesive wound dressing

- Soft and gentle to the skin – can be used for patients with sensitive skin
- Conforms well to body contours and remains in place
- Rounded corners help reduce the need to change the dressing
- Good absorbency and cushioning effect
- Fluid repellent backing

Peha-Haft®

Conforming cohesive bandage

- Conforming elastic bandage that sticks to itself and not the skin, hair or clothes
- Very kind to the skin
- Does not contain natural rubber latex, chlorine or acrylate
- No need for additional fixation
- High absorption and air permeable

Omnifix®

Nonwoven retention/abrasion tape

- Skin-friendly adhesive
- Especially soft and conformable
- Highly permeable to air and water vapor
- Helps reduce potential for maceration
- Provides reliable adherence
- Self-adhesive, nonwoven

Sterilux® Bulky

Premium bulky bandage

- Made of 100% highly absorbent gauze
- Air permeable
- Made without optical brightener or chlorine
- Sterile
- Does not contain natural rubber latex

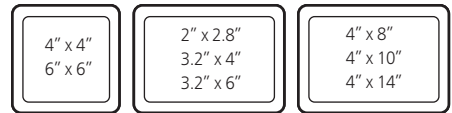

Flexicon®

Premium conforming stretch bandage

- Soft, polyester fabric for added comfort
- Holds dressings securely in place without slipping
- Unique structure allows bandage to cling to itself
- Conforms to difficult-to-dress body contours
- Finished edges minimize lint and unraveling
- Blue application guide helps ensure consistent wrapping

Shapes:

Indications:

- Protection of post-surgical wounds
- Wounds with low to moderate level of exudate
- Protection of wounds following wound cleaning

Sizes:

- 1" x 4.5 yards
- 1.5" x 4.5 yards
- 2.25" x 4.5 yards
- 3" x 4.5 yards
- 4" x 4.5 yards

Indications:

- Safe dressing retention for use on joints and conical or rounded parts of the body
- Fixation of cannulae, padding material, etc.

Sizes:

- 2" x 2 yards
- 4" x 2 yards
- 2" x 10 yards
- 4" x 10 yards
- 6" x 10 yards

Indications:

- Dressing retention
- Ideal for use on joints, round and angular parts of the body
- Securement of catheters, measuring instruments, probes and similar devices.

Sizes:

- Sterile
4.5" x 4.1 yards
- Non-Sterile
4.5" x 4.1 yards

Indications:

- Primary treatment of dirty, infected and highly exudative wounds
- Secondary dressing
- Universal wound dressing

Sizes:

- | Sterile | Non-Sterile |
|----------------|----------------|
| 1" x 4.1 yards | 1" x 4.1" |
| 2" x 4.1 yards | 2" x 4.1 yards |
| 3" x 4.1 yards | 3" x 4.1 yards |
| 4" x 4.1 yards | 4" x 4.1 yards |
| 6" x 4.1 yards | 6" x 4.1 yards |

Indications:

- Applications that require controlled compression
- Securing dressings
- Treating burns

Conco®

Conforming stretch bandage

- Secures dressings in place with minimal risk of slipping or constriction
- Clings to itself when overlapped
- Conforms to body contours
- Finished edges minimize lint and unraveling
- Does not contain natural rubber latex

Sizes:

Sterile	Non-Sterile
1" x 4.1 yards	2" x 4.1 yards
2" x 4.1 yards	3" x 4.1 yards
3" x 4.1 yards	4" x 4.1 yards
4" x 4.1 yards	6" x 4.1 yards
6" x 4.1 yards	

Indications:

- Applications that require controlled compression
- Effective for securing dressings
- For use in treating burns

Sorbalex® ABD

Absorbent abdominal pad

- Blue guide line to ensure proper application
- Absorbent cellulose inner layer core
- Soft, nonwoven outer layer for patient comfort
- Does not contain natural rubber latex

Shapes:

5" x 9"
7.5" x 8"
8" x 10"

Indications:

- Primary or secondary dressing for heavily draining acute or chronic wounds
- Secure with Ominfix® latex-free retention tape

Sorbalex® Non-Adherent

Absorbent non-adhering dressing

- Bonded on both sides by a smooth, perforated polyester film outer surface
- Minimizes risk of disrupting tissue healing by not sticking to the wound
- Allows fluids to pass through dressing
- Cuts to fit various wound sizes with virtually no loose fibers
- Absorbent inner layer of polyester/ rayon material

Shapes:

2" x 3"
3" x 4"
3" x 8"

Indications:

- Primary dressing for wounds such as burns and early stage skin ulcers
- Primary dressing for lightly draining acute or chronic wounds

Sterilux®

Premium gauze sponges

- 100% highly absorbent gauze
- Can be unfolded several times to obtain a larger size without fraying
- Made with pure, clean cotton without optical brightener or chlorine
- Offered in different product sizes, layers and threads
- Sterile

Shapes:

Sterile Non-Sterile

2" x 2"	2" x 2"
3" x 3"	3" x 3"
4" x 4"	4" x 4"

Indications:

- Universal wound dressing
- Wound cleansing or as a wound cover
- Dirty, infected and high level of exudate
- Secondary dressing

Thickness:

8 ply

12 ply

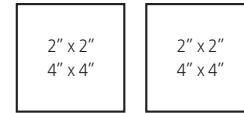

Econolux®
Gauze sponges

- 100% absorbent gauze
- Cut edges are on the inside of the sponge
- Offered in different product sizes, layer and threads
- Sterile

Shapes:

Sterile Non-Sterile

Indications:

- General wound treatment
- Wound cleansing or as a wound cover
- Dirty, infected and high level of exudate
- Secondary dressing

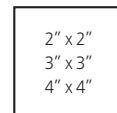

Sorbalux® All-Purpose

All-purpose drain and I.V. cover sponges

- Soft polyester/rayon nonwoven materials
- Absorbent and fast wicking
- Pre-cut slit drain and I.V. sponges
- 4 - and 6-ply options
- Easy to apply

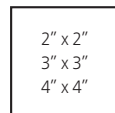

Shapes:

Sterile

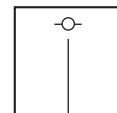

Shapes:

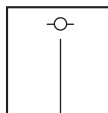

Non-Sterile

Drain sponge
4" x 4"

I.V. sponge
2" x 2"

Indications:

- Wound cleansing and prepping, applying ointment wiping needles, cleaning slides, etc.
- Secure with Ominfix® latex-free retention tape
- All-Purpose Sponge is ideal as a primary or secondary wound dressing
- Drain Sponge is ideal as sterile protection around chest, tracheotomy, feeding and gastric tubes
- I.V. Non-Woven Sponge is ideal as sterile protection around I.V., mid-line and central line catheters

Flex-Band®

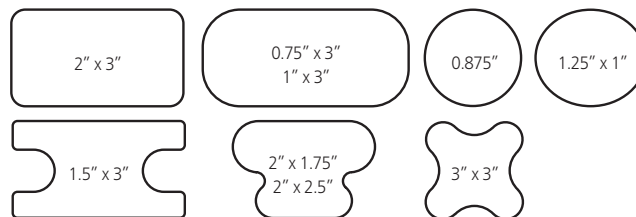

Fabric adhesive bandage

- Skin friendly
- Special shapes to allow for optimal movement
- Does not adhere to the wound bed
- Flexible and snug fitting
- Good adhesion
- Sterile
- Does not contain natural rubber latex

Indications:

- Protection of minor injuries
- Protect wounds including the knuckle or finger tip

Shapes:
